## **PART I. THE ADMINISTRATION OF INTERSCHOLASTIC ACTIVITIES**

### **PHILOSOPHY**

The purpose of extracurricular activities at Parkers Prairie High School is to provide all students with an opportunity to participate in a varied program, and to provide positive educational experiences as an adjunct to the academic program.

The extracurricular program shall be an integral part of the total educational process, be operated with the well-being of the student in mind, and be governed by sound educational practices.

### **GOALS AND OBJECTIVES**

1. Develop programs, provide facilities, provide coaching, and commit resources so activity participation becomes a reality for all students who desire to be in a program.
2. Provide an equal opportunity for all students regardless of sex.
3. Provide inter-scholastic activity participation on a more vigorous competitive basis than provided in intramural sports. This participation shall be guided by the Minnesota State High School League.
4. Provide a program whereby the safety and welfare of the participant shall, at all times, be paramount to the outcome of any contest.
5. Provide opportunities for participants to act in situations that are physically healthy and beneficial, mentally stimulating, and morally sound.
6. Develop positive attitudes, good citizenship, sportsmanship, and a competitive spirit.
7. Provide opportunities to meet new situations whereby social and personal growth will be attained, and give inner satisfaction and enjoyment through the performance and participation.

### **COACHING PHILOSOPHY**

1. We will provide opportunities for participants to act in situations that are physically wholesome, mentally stimulating, and morally sound.
2. We will stress that participation in activities is a privilege which carries with it definite responsibilities.
3. We will work to develop wholesome attitudes, good citizenship, and sportsmanship.

4. We will work to develop emotional control and stability in participants.
5. We will work to develop a sense of personal initiative and responsibility in each participant.
6. We will work to develop real friendships and a feeling of caring between squad members.
7. We will work to develop in each player a firm respect and loyalty to the team, the school, and the community.
8. We will work to develop each player's skill to its fullest potential.
9. We will work to develop in each player the poise, pride, and competitive spirit necessary to perform up to his/her physical and mental ability in a stress situation.
10. We will keep informed of current training and coaching methods and systems and use those methods and systems that are best suited for present teams and/or individuals.
11. The coach will remember that each student participant is a person with unique feelings. We will use a humanistic approach and treat each participant individually.

### **SPORTSMANSHIP CREED**

Good sportsmanship is strived for in all events. Good sportsmanship is a responsibility of players, coaches, faculty, student and adult spectators, officials, and the media. Promotion of good sportsmanship at all athletic events should include a demonstration of respect for opponents and officials. All involved should maintain self-control throughout the contest. Rules of the event should be understood and skill and performance should be recognized regardless of team affiliation. Good sportsmanship is the cornerstone of a quality athletic program.

### **PROFESSIONAL AND PERSONAL RELATIONSHIPS**

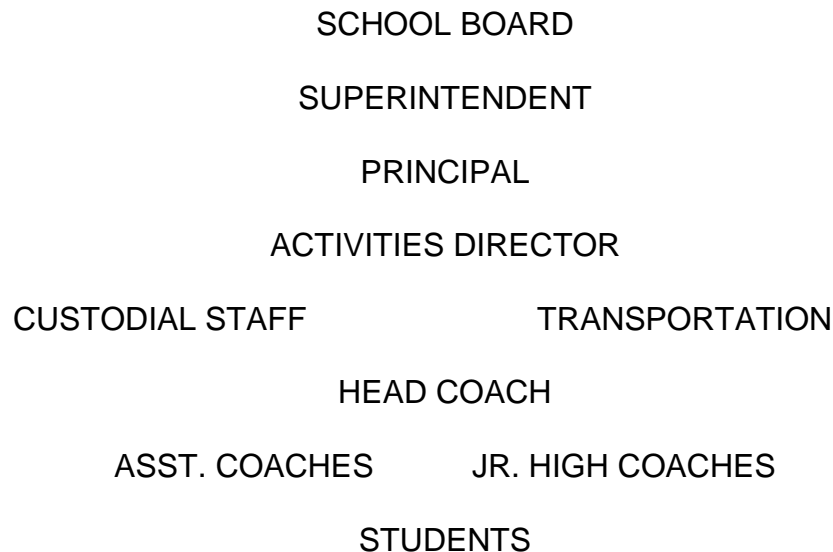

Rapport: A coach must early on develop a good rapport with any number of individuals and groups; with team personnel; with the student body; with the members of the professional staff involved (teachers, custodians, bus drivers, etc.); with the community as a whole and particularly with the parents, spectators and support constituents; with the media representatives; and with the corresponding coaches of the conference and section.

Cooperation: The activities director expects a maximum of cheerful give and take between all individuals associated in any degree with the comprehensive activity program. Coaches must work hand-in-hand with the athletic director, principal, and

other members of the staff. Limited budgets, extended activity programs, and heavy demands on limited facilities make "cooperation" the magic word.

Leadership: A coach should be in control at all times. Language, actions, and emotional displays come under close scrutiny, both in practice and game conditions. A coach (but not only a coach) is responsible for a variety of discipline such as: school codes and regulations, MSHSL regulations, training rules, game rules, and ideals of sportsmanship. "Desire" to win, do well, and lose gracefully should be emphasized.

### **PART III. REGULATIONS FOR ALL COACHES**

Any coach in charge of student participants at any level and in any sport will be expected to maintain a high degree of integrity for carrying out their duties and responsibilities. Be an example to those you coach in language and behavior. (Profanity should not be used.) Listed below are the responsibilities most often encountered:

A. Coaches' Duties

1. Assign managers and the duties each is expected to perform.
2. Be first to arrive and make sure that you are the last to leave.
3. Be sure that participants have permission from the activities office before they are allowed to practice.
4. Check all players' eligibility at the activities office.
5. Prepare a complete roster of players and necessary information at least one week before your first contest so that certified lists of eligibility and rosters are on the MSHSL website.
6. Have first-aid equipment handy at all times. Have a plan of action in case of serious injury.
7. Assign one manager on the field and one in the locker room when possible.
8. Demonstrate the manner in which equipment is to be worn and taken care of.
9. Sequence of learning will be followed when appropriate.
10. All coaches are responsible for teaching proper techniques of the sport.
11. Ensure that his/her student participant fully understands the MSHSL/PPHS rules and policies regarding alcohol and drug use.

B. Coaches' Dress

1. Coaches should be dressed appropriately for practice and contests. We will try to dress our teams well and expect the same from our coaches.

C. Coaches' Responsibilities on Trips

1. Hold a team meeting before each departure to firm up general directions. Have each player check equipment and assume responsibility for it throughout the trip.
2. Provide for supervision of your players in buses/vans, at away events, and at home events. The only exception will occur under extreme circumstances with administrative approval.
3. Prepare a check list of needed equipment so that nothing is forgotten by the managers.

4. When players arrive back at school, the coach must be sure that each individual has a way home. Any injured player must be personally turned over to the doctor or to parents.
5. Make provision for safekeeping of all valuables.
6. Any extra stops on road trips should be cleared with the A.D. ahead of time. No extra stops should be made on school nights during the regular season.
7. The coach should check the dressing rooms, hotel rooms, restaurant, and bus as soon as the students have left the facility. This will help prevent the loss of clothing and equipment and give the coach information as to the condition of the property.
8. Impress upon your participants that poor sportsmanship, conduct unbecoming an athlete or artist, and use of obscene language and gestures will not be tolerated. Set the standards of behavior and hold to them.
9. Inform the participants on the type of uniform to wear, exact time of departure from home, and approximate time of arrival home. Encourage the students to inform their parents of these facts in order to be able to handle emergencies.
10. Coaches should make sure (or assign managers and players) to see that the bus is clean at the end of the trip.
11. Do not tolerate horseplay, loud shouting, or players shouting out of windows.
12. Coaches should discuss with team members the appropriate conduct when using the dressing facilities of the opponents. Note the general condition of the dressing room, both upon arrival and departure, to forestall vandalism or theft. It may be necessary at times to hold an inspection after returning from a trip to check for possible items taken by the players. (Carrying out these procedures may save the school and the coaching staff some unfavorable publicity.)

D. Attendance at Meetings

1. When rules meetings are held for a specific activity, all coaches involved in that sport/fine art should attend the meetings.
2. Attend MSHSL, section, sub-section, or conference meetings that relate to his/her sport(s)/fine art.

E. Practices

1. All practices are to be supervised by the contracted coaches at all times. If a coach is unable to be present, a suitable replacement coach must be approved by the A.D.
2. Sunday meetings and practices are prohibited by the MSHSL. Thanksgiving and Christmas should be treated the same as Sunday. Practice during the more extended vacations may be scheduled at the discretion of the coach with the approval of the A.D. Games and practices will not, as a general rule, be scheduled after 6:00 p.m. on Wednesdays.

#### F. Injuries

1. Student participants should be reminded repeatedly to report all injuries to their coaches as soon as possible. Coaches should administer whatever first aid they are qualified to handle and refer the student to parents, trainer (Heartland Orthopedic Specialists) or another physician for more serious injuries.
2. All injuries must be followed by an injury report filed in the high school office.
3. The principal, A.D., and coach may be held accountable for the manner and procedure in which injuries are handled. The coach is required to perform adequate first aid for all injuries and no more. Good common sense in handling the situation is a must. In order to discourage lawsuits, there are sound practices that must be followed:
  - a. Provide good supervision of the practice sessions, locker rooms, shower rooms, and training areas.
  - b. Make sure that all participants have an up-to-date physical and MSHSL permission form.
  - c. Always follow the instructions of the student participant's doctor.
  - d. Make sure students have "Return to Participation" slips after an injury referred to a doctor.
  - e. Never use any drugs, medicines, or local anesthetics for participants.

  - g. Check all equipment regularly and maintain all facilities in top condition to assure safety at all times.
  - h. Use good common sense in all situations when handling injuries or sudden illness. DON'T PANIC!
  - i. When there is a sequence of learning for a student to learn in order to compete, the coach should be sure that all steps in the sequence are followed.

#### G. Discipline with Student Participants

1. From your position as coach you may provide one of the greatest opportunities to understand the need for discipline that a student may encounter in the total

educational experience. Your practice procedures, attendance regulations, and game tactics, as well as the manner in which you deal with rule violations will reflect your disciplinary abilities and greatly determine your effectiveness as a coach. It is the weak coach who is the participant's buddy instead of his teacher and who leaves the discipline to others or neglects it entirely. The head coach is usually the judge of what shall be done when rules are violated, but the principal and A.D. should be kept informed when any serious violation occurs.

2. Some standard guidelines might help to be more consistent when infractions do occur:
  - a. We want to be firm and fair, but to ensure that justice prevails.
  - b. We are concerned first with what is best for all participants and second with what is best for the individual.
  - c. Consequences may occur when major discipline is needed.
3. It is in the area of discipline that coaching efforts come to be taken seriously by administration, teachers, community, and, most importantly, by participants.

#### H. Transportation Requirements and Guidelines

1. All team members and managers must travel on the assigned bus. Students may travel with a parent/guardian with prior administrative approval to the event. From the event, students may be released to their parents if they sign a written release of liability. Students may be released to surrogate parents such as aunts, uncles, grandparents and brothers or sisters (HS graduate and older) only when the student's parents have contacted the school by phone or in person requesting approval of the arrangement prior to the event. If approved, the surrogate parent must sign a written release of liability prior to leaving the event with the student.

## **SCHOLASTIC ELIGIBILITY REQUIREMENTS**

The Minnesota State High School League (Bylaw 407.00) defines eligibility as "making satisfactory progress toward graduation". The Parkers Prairie School District does not require that the determination of "satisfactory progress" be limited to mid-quarter or end of quarter GPA. At any point during the quarter, teachers have the authority to inform the office that a participant is "failing to make satisfactory progress toward graduation". If this happens, the student will not be allowed to participate in the activity until he or she has worked with the teacher to achieve satisfactory academic progress. The student will remain ineligible until proof of passing the course(s) can be made. Student will follow signature protocol to prove reinstated eligibility.

### Quarter End Report Cards

Students who have an incomplete or fail to achieve a passing grade at the end of any quarter are ineligible for a two (2) week period from all identified PPHS activities or MSHSL activities/contests. Ineligibility time starts the next week after grades have been released to students and parents and will run consecutively for 14 calendar days. A participant may become eligible during the period of ineligibility by achieving a passing grade for the grading period in which the student scored "NC (no credit)" or "I (incomplete)". "ALL" is meant to mean those activities which are sponsored by Parkers Prairie High School and/or the MSHSL.

At the end of the 4th quarter, students who have earned a NC in any class will be ineligible for the first two contests in the fall unless they have earned the passing grade through credit recovery during the summer. Students should coordinate with principal for credit recovery summer options. Participants will be allowed to practice and scrimmage unless determined (by faculty or administration) academic support is necessary. A coach will not allow a participant to participate until the student has met the requirement.

### Ineligibility

Students will have weekly qualifications for eligibility during the quarter. This will begin during the 3rd week of each quarter. Panther Hour on Friday is the notification for students. Ineligible begins the first day of the following week and continues until the grade is passing. Students will be ineligible for a minimum of 1 day, the first day of the week. Students with NCs at the end of each quarter will be ineligible for 2 weeks the following quarter. This includes the 4th quarter where ineligibility will be the beginning of the fall season.

### Playing time at the junior high level: (7th and 8th grade)

The philosophy of all Parkers Prairie School District-supported athletic programs through the Junior High level is to develop skills and encourage participation. Players should be given the opportunity to play in each game that is scheduled during the week.

While it may be impossible to have equal playing time for every player, every effort will be made by the coaching staff to provide fair amounts of playing time to each player over a number of games. Factors that may affect playing time at this level include, but are not limited to, the type of competitive settings such as tournaments along with a daily basis of behavior, hard work, dedication, attendance, listening to coaches, willingness to be coached and academic progress.

Playing time in upper grades: (9th through 12th grades)

Starting at the C Squad level, playing time will be increasingly based on the team's best chance to compete and win. Other factors including, but not limited to, the type of competitive settings such as tournaments along with a daily basis of behavior, hard work, dedication, attendance, listening to coaches, willingness to be coached and academic progress. If the outcome of a game becomes obvious, coaches are encouraged to provide participation opportunities to all players.

1. Student participants are expected to support coaches in decisions that have to be made for the benefit of the team and as part of the over-all plan for a successful program. Game strategy and handling of substitutions is not a matter for discussion among players.
2. Missing practices, meetings, or games may affect playing time and/or starting status. Detrimental attitudes or insubordination may result in suspension from the team.
3. Captains may be appointed or selected by the team at the coach's discretion.

## **LETTERING RULES AND REQUIREMENTS**
